

Arcaninco Aficia

Arcaninco is a typeface created by Mialyansa . Aficia variants are specifically created only by Mialyansa. The typeface is meant to emulate arcane runes, or futuristic glyphs. The font works both in English and Spanish. However, alternative ortography and rules are only functional in Spanish in this specific distribution.

Arcaninco is distributed under the open source license known as [OFL.md]. More information down below.

About the Alphabet

Arcaninco can be used following standard ortographic rules or instead, alternative rules, however these are only functional in Spanish. To use the standard ortographic rules, one must only type in lower-case. Using caps is reserved for alternative writting rules. Even though lowercase and Caps look identical, Caps have functionalities that are only meant for the alternative writting rules.

Lets have a look at the alphabet, each english letter has a glyph counter part in Arcaninco. Therefore, one can imagine writting in the Arcaninco font just like writting in English, but instead, using different glyphs.

Because Arcaninco's alternative language rules are only designed for Spanish usage. They are not available in English. If the reader is interested in taking a look at them, they may read the file [Leeme.pdf], which contains the pertinent information.

As a reminder, different variants or modifications of Arcaninco may have their own writting rules, even in English. The author encourages any editors, to showcase those rules in their own version of the file [Readme.pdf].

About the license

NOTE: THE FOLLOWING TEXT DOES NOT OFFER A LEGAL EXPLANATION OF THE LEGAL AFFAIRS EXPLAINED IN THE FILE [OFL.md] NOR DOES IT INTEND TO. IT DOES NOT NECESARLY SHOWCASE ACCURATELY THE TERMS AND CONDITIONS NOR DOES IT INTEND TO EITHER.

In a nutshell, OFL is meant to allow users to make use of typefaces for free, even for commercial purposes, with the exception of selling the font's distribution itself. Please, remember this is just a resumed concept of what OFL is. I am likely legally obligated to say this, and I would remind the reader so even if it weren't the case.

Thanks for reading.
